LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 8''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot's Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next torn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul

off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Sanger Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 19'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next torn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

C. B. GREENLAW, Secretary.

Fort William, the 23d January, 1837.

"No. 387, from which it will be observed that, the Court decided on a question before them, that without the Proclamation provided for in the 1st Reg. 22 of 1827 of "Clause of Section IX. of the Bombay Code." "Regulation quoted, no Military Station acquires the jurisdiction therein referred to; and to apprise you that the limits of the principal Military Cantonments under this Presidency, have been notified in General Orders, but that no Proclamation has been published expressly declaring them to be Military Stations for the purposes of the Regulation."

"The Right Hon'ble the Governor in Council had previously considered that, by the true construction of the Law referred to, principal Military Stations were to possess the jurisdiction in question as a matter of course, while other Stations could acquire it only by Proclamation, because no reason appeared why the Law should mention principal Military Stations as distinguished from other Military Stations, if both were meant to stand on the same footing for the purpose in view."

"As Government does not, however, contest the exposition of the words of the Regulation by the Court, and as the Judges are of opinion that it is necessary to issue a Proclamation for all those Military Stations which Government are desirous should be brought under the Provisions of Regulation XXII. of 1827, I am directed to inform you that the same will be published in the next Government Gazette, and to request that His Lordship in Council will be pleased to pass the enactment herewith forwarded."

In compliance with the recommendation contained in the foregoing Extract, His Lordship in Council is pleased to resolve that the following Act be passed as Act No. XIII. of 1837, and it is hereby promulgated accordingly for general information.

Act No. XIII. of 1837.

It is hereby enacted, that no trial by Court Martial which may have been held prior to the passing of this Act at any Military Station, within the Territories subject to the Government of the Presidency of Bombay, shall be deemed to have been illegal on the ground that such Military Station had not been proclaimed in the manner directed by Section IX. Regulation XXII. of 1827, of the Bombay Code.

NOTICE.

BANK OF BENGAL,

20th May, 1837.

Notice is hereby given, that the Pamphlet containing the papers, ordered to be printed, for the use of the Proprietors, agreeably to a Resolution at their Special General Meeting of the 20th February last, is printed, and ready for delivery to the Proprietors or their Agents on application at the Bank.

Notice is hereby further given, that a Special General Meeting of the Proprietors, will be held at the Bank at 11 A. M., on Saturday the 10th day of June, proximo, on the subject of the questions discussed in the said printed papers.

By Order of the Directors,

(Signed) G. UDNY,

Secy. to the Bank

BANK OF BENGAL,

10th June, 1837.

At a Meeting of Proprietors of the Bank of Bengal, held this day, pursuant to the advertisement in the Government Gazette of the 6th ultimo, of which copy is in the margin,

Mr. J. Pattle was called to the chair.

1st. Proposed by Mr. E. Macnaghten, seconded by Sir J. W. Cragg, and

Resolved.—That the Proprietors approve of the proceedings and views of the

Directors (as expressed in their letter to the Government of Bengal of the 15th December last) in regard to the Bank of India Scheme, and that the further consideration of that project is unnecessary.

2d. Proposed by Mr. R. D. Mangles, seconded by Baboo Russomoy Dutt, and

Resolved.—That this Meeting is entirely satisfied with the measures taken by the Directors to employ in the safest and most profitable manner the whole available Capital of the Bank, as reported in the Preface to the printed papers.

3d. Proposed by Mr. H. T. Prinsep, seconded by Mr. E. Macnaghten, and

Resolved.—That Mr. J. A. Dorin and Mr. G. Uday be scrutineers for the purpose of ascertaining votes at this Meeting.

4th. Proposed by Mr. H. T. Prinsep, seconded by Mr. E. Macnaghten, that, with reference to the proposition referred to in page vi. of the Preface to the Printed Papers, in regard to realizing for constituents interest on Company's Paper and other Public Securities deposited with the Bank, that the Directors be empowered to entertain the necessary establishment to do this business for constituents gratis.

An amendment to this resolution was proposed by Mr. B. Harding, viz. that after the word constituent be inserted, instead of the word "gratis," the words "at a charge of one per cent." This amendment was negatived.

The original proposition was then put and there appeared by the report of the scrutineers—

For it 21

Against it 22

Majority against it 1

5th. Proposed by Mr. Jas. Cullen, seconded by Mr. Alexander Colvin, and

Resolved.—That, in the opinion of this Meeting, any further augmentation of capital is not necessary, unless the Bank should find it to be expedient to establish Branch Banks.

6th. Proposed by Mr. E. Macnaghten, seconded by Mr. R. D. Mangles, and

Resolved.—That it is not at present desirable to extend the operations of the Bank either by way of Branch Banks or Agencies, or in any manner to place the assets or responsibility of the Bank beyond the immediate control of the Calcutta Directors, but it is nevertheless desirable that the Charter should confer the power of establishing such Banks or Agencies, should circumstances hereafter make such a measure expedient.

An amendment to this resolution was proposed by Mr. W. F. Fergusson, that it is desirable and expedient now to establish Branch Banks or Agencies, and that the Directors take measures to do so whenever and wherever practicable. This amendment was negatived.

7th. Proposed by Mr. R. H. Cockerell, seconded by Mr. A. Colvin, and

Resolved.—That the Proprietors will not object to receive the Deed of Incorporation in the form of an Act of the Legislative Council, provided there be inserted therein Clauses giving a distinct pledge as to the period for which the Act shall continue in effect and in respect to the conditions of its revocability, and provided the Bank Directors shall be advised that the Local Act will be of equal effect in England as in India, in giving to Proprietors Corporate protection in the exemption from personal liability.

On this resolution there was, by the report of the scrutineers—

For it 17

Against it 15

Majority in favor of it 2

8th. Proposed by Mr. H. T. Prinsep, seconded by Mr. E. Macnaghten, and

Resolved,—That this Meeting sees no objection in allowing the registered share to stand as in the Draft of Act at 1000 rupees, but does not think that less than a 4000 rupees interest ought to be the qualification for a vote for the election of a Director, or at Meetings.

An amendment to this resolution was proposed by Mr. J. W. Cragg, viz.

That this Meeting see no reason for making any alteration in the present value of the shares. This amendment was negatived.

A second amendment to this resolution was proposed by Mr. G. Udny, viz.

That the amount of Stock to be entitled a share be reduced from 4000 rupees to 1000 rupees, and that the amount of Stock necessary to qualify for a vote be reduced from 4000 rupees to 1000 rupees also. This amendment was also negatived.

9th. Proposed by Mr. H. T. Prinsep, seconded by Mr. E. Macnaghten, and

Resolved,—That the qualification for a Director be an interest of not less than 12,000 rupees Stock.

10th. Proposed by Mr. W. F. Fergusson, seconded by Mr. A. Colvin, and

Resolved,—That Directors who go out by rotation ought not to be immediately re-eligible.

11th. Proposed by Mr. Alex. Colvin, seconded by Mr. R. H. Cockerell, and

Resolved,—That written votes, on special questions, be taken. That general proxies be allowed, and that there be no restriction of number to the votes by proxy to be given by Proprietors.

12th. Proposed by Mr. H. T. Prinsep, seconded by Mr. B. Harding, and

Resolved,—That this Meeting do not consider it to be necessary to alter the existing rules under which the Directors have, by valuation of assets, full power to provide against contemplated losses, and that no special rule for allowing a reserve is required.

13th. Proposed by Mr. B. Harding, seconded by Mr. W. F. Fergusson, and

Negatived,—That, with reference to Clause 23d of Draft

XXII. And it is hereby enacted, that no person who shall hold the Office of Secretary, Treasurer, Head Accountant, or Cashier of the Bank of Bengal, shall engage in any other Commercial business either on his own account, or as Agent for any other person or persons, or act as a Broker for the sale or purchase of Government Securities, and that every person appointed to any one or more of the said Offices, shall give security to the Directors for the faithful discharge of his duty in the sum of 50,000 rupees.

the Direction of the Bank of Bengal, be expunged.

By the report of the scrutineers there were for this resolution—

For it 11
Against it 14

Majority against it 3

15th. Proposed by Mr. B. Harding, seconded by Mr. R. H. Cockerell, and

Negatived,—That, adverting to the late increase of the Bank Capital by public subscription, by which the relative proportion of the Government Stock has been altered from one-fourth ($\frac{1}{4}$) of the whole to one-seventh ($\frac{1}{7}$) the number of Proprietary Directors be increased from six to nine, thereby giving the Public 1 Director to every seven lakhs of Stock, and Government 1 Director to 5 $\frac{1}{2}$ lakhs of Stock.

16th. Proposed by Mr. B. Harding, seconded by Mr. R. H. Cockerell, and

Resolved,—That the number of the Government Directors be reduced from 3 to 2, giving 1 Government Director to every 5 $\frac{1}{2}$ lakhs of Stock, and the Public 1 Director for every 6 $\frac{1}{2}$ lakhs of Stock.

17th. Proposed by Mr. R. H. Cockerell, seconded by Mr. H. T. Prinsep, and

Resolved,—That with reference to that part of the 24th Clause of the Draft Act (No. 3) regarding the "buying and selling of Bills of Exchange," that the words "payable in India" be added.

Thanks were then voted to the Chairman and the Meeting broke up.

J. PATTLE, Chairman.

LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 8''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. FINANCIAL DEPARTMENT, THE 15TH JUNE, 1836.

Notice is hereby given, that under instructions just received from the Honorable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve: and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Advances made at.....	Bengal.
Ditto.....	Madras.
Ditto.....	Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including

Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

LEGISLATIVE DEPARTMENT,
THE 5TH JUNE, 1837.**

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council in the Legislative Department, under date the 5th June 1837, is published for general information:

Read the following Extract, (paras. 2 to 4) from a Letter from the Secretary to the Government of Bombay, dated the 18th ultimo.

"In forwarding Copies of the Proceedings of this Government on the above subject, I am instructed to solicit the attention of the Right Hon'ble the Governor General of India in Council, to the Letter from the Judges of the Sudder Adawlut, dated the 24th September last, No. 387, from which it will be observed that, the Court decided on a question before them, that

"without the Proclamation provided for in the 1st Reg. 22 of 1827 of Clause of Section IX. of the Regulation quoted, no Military Station acquires the jurisdiction therein referred to; and to apprise you that the limits of the principal Military Cantonments under this Presidency, have been notified in General Orders, but that no Proclamation has been published expressly declaring them to be Military Stations for the purposes of the Regulation."

"The Right Hon'ble the Governor in Council had previously considered that, by the true construction of the Law referred to, principal Military Stations were to possess the jurisdiction in question as a matter of course, while other Stations could acquire it only by Proclamation, because no reason appeared why the Law should mention principal Military Stations as distinguished from other Military Stations, if both were meant to stand on the same footing for the purpose in view."

"As Government does not, however, contest the exposition of the words of the Regulation by the Court, and as the Judges are of opinion that it is necessary to issue a Proclamation for all those Military Stations which Government are desirous should be brought under the Provisions of Regulation XXII. of 1827, I am directed to inform you that the same will be published in the next Government Gazette, and to request that His Lordship in Council will be pleased to pass the enactment herewith forwarded."

In compliance with the recommendation contained in the foregoing Extract, His Lordship in Council is pleased to resolve that the following Act be passed as Act No. XIII. of 1837, and it is hereby promulgated accordingly for general information

Act No. XIII. of 1837.

It is hereby enacted, that no trial by Court Martial which may have been held prior to the passing of this Act at any Military Station, within the Territories subject to the Government of the Presidency of Bombay, shall be deemed to have been illegal on the ground that such Military Station had not been proclaimed in the manner directed by Section IX. Regulation XXII. of 1827, of the Bombay Code.

The Tidewater on board each Vessel, after satisfying himself by inspection that Baggage as above defined, has been in use, will pass direct from the Ship.

Fresh Millinery, Saddlery, Musical Instruments, Guns, Pistols, Carriages, Wines, Spirits, Plate, Glass, Crockery, &c. not used, [although for personal use and not brought for sale] are liable to Duty; all packages containing such articles as well as all closed packages whatever the contents may be stated to be, must be sent to the Custom House at the expense of the Proprietor for examination and levy of Duty, unless the Proprietor can produce to the Tidewater a Custom House Permit or Pass-particularly specifying such packages.

Passengers whose Baggage may have been forwarded to the Custom House, are requested to apply in writing to the Collector of Customs at the Custom House for a Permit; such application should contain the number of packages and the contents and value of each.

Personal applications cannot be attended to.

By Order of the Board of Customs, Calcutta Custom House, the 2d December 1836,

R. WALKER,

Actg. Coll. Govt. Customs.

LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 8''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 48'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put

a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

The following Extract from the Proceedings of the Right Hon'ble the Governor General in Council in the Legislative Department, under date the 5th June 1837, is published for general information:

Read the following Extract, (paras. 2 to 4) from a Letter from the Secretary to the Government of Bombay, dated the 18th ultimo.

"In forwarding Copies of the Proceedings of this Government on the above subject, I am instructed to solicit the attention of the Right Hon'ble the Governor General of India in Council, to the Letter from the Judges of the Sudder Adawlut, dated the 24th September last, No. 387, from which it will be observed that, the Court decided on a question before them, that without the Proclamation provided for in the 1st Reg. 22 of 1827 of "Clause of Section IX. of the Bombay Code. "Regulation quoted, no Military Station acquires the jurisdiction therein referred to; and to apprise you that the limits of the principal Military Cantonnments under this Presidency, have been notified in General Orders, but that no Proclamation has been published expressly declaring them to be Military Stations for the purposes of the Regulation."

"The Right Hon'ble the Governor in Council had previously considered that, by the true construction of the Law referred to, principal Military Stations were to possess the jurisdiction in

"question as a matter of course, while other Stations could acquire it only by Proclamation, because no reason appeared why the Law should mention principal Military Stations as distinguished from other Military Stations, if both were meant to stand on the same footing for the purpose in view."

"As Government does not, however, contest the exposition of the words of the Regulation by the Court, and as the Judges are of opinion that it is necessary to issue a Proclamation for all those Military Stations which Government are desirous should be brought under the Provisions of Regulation XXII. of 1827, I am directed to inform you that the same will be published in the next Government Gazette, and to request that His Lordship in Council will be pleased to pass the enactment herewith forwarded."

In compliance with the recommendation contained in the foregoing Extract, His Lordship in Council is pleased to resolve that the following Act be passed as Act No. XIII. of 1837, and it is hereby promulgated accordingly for general information

Act No. XIII. of 1837.

It is hereby enacted, that no trial by Court Martial which may have been held prior to the passing of this Act at any Military Station, within the Territories subject to the Government of the Presidency of Bombay, shall be deemed to have been illegal on the ground that such Military Station had not been proclaimed in the manner directed by Section IX. Regulation XXII. of 1827, of the Bombay Code.

LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude 20° 19' 25" N. and Longitude 86° 48' 5" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

C. B. GREENLAW, Secretary.

FORT WILLIAM.

FINANCIAL DEPARTMENT, THE 16TH JUNE, 1836.

Notice is hereby given, that under instructions just received from the Honourable Court of Directors, the following Terms and Conditions for making Advances upon the Goods and Merchandise of Individuals intended for Consignment to England re-payable to the Court of Directors of the East India Company, have been substituted for those contained in the Advertisement of this Department, dated the 27th October 1834.

1st.—The parties to whom Advances may be made shall agree that the respective Consignments be delivered into such Warehouses as the Court of Directors may approve; and that they be subject to the Control of the Court of Directors until the lien of the Company upon the Consignment shall have been satisfied.

2d.—Upon each consignment, the value of which is to be ascertained by the Officers of the Indian Governments, or Authorized Agents of the East India Company, an Advance not exceeding two-thirds of such ascertained value will be made.

3d.—For re-payment of the Advance, Bills of Exchange to be drawn in triplicate, at six months sight, at the rate of—

s. d.

Per Company's Rupee for Advances made at.....	Bengal.
Ditto.....	Ditto..... Madras.
Ditto.....	Ditto..... Bombay.
Per Spanish Dollar, Ditto.....	China.

4th.—The Parties will be required to place in the hands of the Board of Customs, Salt and Opium, Bills of Lading of the Consignment and Policies of Insurance effected thereon, both in triplicate. The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including

Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

LIGHT AT FALSE POINT—BAY OF BENGAL.
NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 5''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 13 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 15 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point, on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

FORT WILLIAM, 26th June, 1837.

No. 124 of 1837.—The Right Hon'ble the Governor General of India in Council having taken into consideration the rules according to which the European Officers of Mounted Corps are at present permitted to select Chargers from Horses, the property of the State, is pleased to rescind the General Orders by the Vice President of the 7th October 1817, and to publish for general information the following Regulation, which is to have effect from this date :

1. The objectionable privilege of taking Horses from the ranks, whether by Officers of Mounted Corps, or by any other individuals whatsoever, is no longer allowed, and in future Officers' Chargers are to be selected from Remount Horses only, or by purchase in the Market.

2. Every Regimental Officer of the Horse Artillery or Cavalry, on first joining his Corps, or on rejoining from Furlough, or from Staff Employ, will be permitted to select two Horses for Chargers, from the Remounts of the Regiment then available, or those that may be next received, and the Medical Officers, Veterinary Surgeon and Riding Master of such Corps, when permanently attached, may each select one Horse of the same description, on the terms hereinafter specified.

3. When two or more Regimental Officers are to select at the same time, the senior is to have the first choice, but must not be permitted to choose a second Horse, till his Junior or Juniors shall each have chosen one.

4. Horses selected as Chargers are always to be branded with the Mark of the Regiment, and entered on the Descriptive Roll of the Corps, when they are delivered over to the selecting Officer.

5. The price to be paid by Officers for a Horse selected from the Remounts of their Corps is Rupees 600.

6. When the selected Charger of an Officer shall die, be killed in action, captured, stolen, lost, shot at the recommendation of a Station or Detachment Committee, or be reported by such a Committee

unfit for further service, from age, vice, disease, or permanent unsoundness, his owner will be permitted to replace him, by a selection from the Regimental Remounts that may be then or thereafter available; and in cases where the Charger has been reported unfit for further service without being infectiously diseased, may dispose of him at his discretion.

7. Selected Chargers may be exchanged between Officers of the same Corps, with the sanction of the Commanding Officer, or when their full price has been recovered by the Pay Master, may be sold to any Officer of the same Corps entitled to a choice; the sale in that case to stand in the place of such choice, and the seller to be allowed to select another Charger.

8. An Officer who finds on trial that he has made an unsuitable selection, may return the Horse and select another from the Regimental Remounts, provided his desire to do so be made known to the Commanding Officer of the Corps within one month from the date of selection, and provided the Horse to be returned be reported by a Regimental Committee as sound and fit for the service, as when selected.

9. At any time after the lapse of six months, and within twelve from the date of selection, a selected Charger may, with the permission of the Commanding Officer of the Corps, be returned for the purpose of being placed in the ranks, if reported by a Regimental Committee to be perfectly fit for the service; but in such case the Officer returning a Charger will not be permitted to choose another Horse in his room; and will merely be entitled to receive back from the Pay Master, the full price, or such portion of the price as may have been deducted from his Pay and Allowances.

10. In all cases where an Officer wishes to select a Charger, or to sell, exchange, or place in the ranks, a selected Charger, he is to make written application to the Commanding Officer of his Corps, who, when necessary, will assemble a Regimental Committee, composed of a President not under the rank of Captain, and two Subalterns as Members, the report or proceedings of which are not to be considered complete without his, the Commanding Officer's countersignature.

11. When Officers are removed from one Brigade of Horse Artillery, or one Regiment of Cavalry, to another, they may take their selected Chargers with them, and the Horses so transferred are to be erased from the Register of the one Corps and entered in that of the other.

12. The selected Chargers of Officers who may retire from the Service proceed on Furlough to Europe, be nominated to the General Staff or any other detached permanent employ, or be removed from a Mounted to a Dismounted Corps, are not to be sold or taken out of the Regiment, to which their owners belonged, unless purchasers cannot be found in the Corps, and the Horses be pronounced, by a Regimental Committee, unfit for admission to the ranks, in which cases they may be disposed of at the discretion of their owners; or when Officers die, their selected Chargers may be disposed of under the above restrictions, by order of the Committee of Adjustment assembled on occasion of the death of such Officers.

13. The terms on which Chargers the property of the several classes of Officers specified in the foregoing para. are, in the first instance, to be offered for sale to such Officers of the Corps as require Chargers, and in default of purchasers, to be tendered for admission to the ranks, are as follows :

If six years old, full price, and if above six, but not exceeding twelve years, a deduction is to be made at the rate of 10 per cent. per annum, for the period elapsed since the Horse attained the age of six years.

6 full price	600
7	540
8	480
9	420
10	360
11	300
12	240

Horses whose age exceeds twelve years are not to be admitted to the ranks, but may be disposed of at the discretion of the owners or their representatives.

14. In future, as soon as the Annual Casting Committees have concluded their duties, Returns are to be made by the several Brigades of Horse Artillery, and Regiments of Cavalry, shewing the number of Horses wanting to complete, as well as the number likely to be subsequently brought forward for the purpose of being cast, and containing a column for "Officers Chargers required." A number of Colts selected at the several Studs as &c. for that purpose will be sent to each Regiment, and such of them as may not be taken by Officers are to be placed in the ranks of the Corps.

15. The price of Chargers selected by Officers is to be realized from their Pay and Allowances by Deputy Pay Masters, in four equal monthly deductions from Field Officers, Captains, and Surgeons; and in eight similar deductions, from Subalterns, Assistant Surgeons, Riding Masters, and Veterinary Surgeons. When an Officer has occasion to select two Horses, double time will be allowed for payment; and in all cases the deductions are to commence with the first issue of Pay after the date of selection.

16. Should an Officer die before the full price of his selected Charger has been recovered, the Horse, if reported by a Committee fit in all respects for the service, is to be received into the ranks, and the amount deducted will be refunded by the Deputy Pay Master, to the Legal Representative of the deceased; but if reported unfit for the service, the Horse is to be sold under the orders of the Commanding Officer of the Regiment, who, from the proceeds of the sale, will remit to the Deputy Pay Master the sum remaining due to Government, and pay the balance, if any, to the person entitled to receive it.

17. When an Officer has selected, and been put in possession of a Charger, he will immediately transmit, in duplicate, a Descriptive Roll of, and receipt for the Horse selected, to the Commanding Officer of the Regiment, who having countersigned them, and caused a transcript of them to be entered in a Regimental Book to be kept for the purpose, will transmit one copy to the Deputy Pay Master within whose payment the Corps may be, and the other to the Military Auditor General.

18. The Commanding Officer of the Regiment will then direct the Officer in whose Abstract the Pay and Allowance of the individual who has selected the Charger are drawn, to insert at the foot of each Abstract, until the necessary deductions shall be completed, a notification to the following effect:

Deduct from — A. E.'s Pay and Allowances — Rupees, being the first (or as the case may be 2d, 3d, 4th, &c. &c.) monthly deduction on account of a Charger selected by him from the Remount Horses which joined the — Regiment on the — day of —.

19 — At the close of each year, the Military Auditor General will compare the Certificates with the amount received on account of selected Chargers, and will take immediate steps for recovering any sums due on their account, which should have been previously realized.

LIGHT AT FALSE POINT—BAY OF BENGAL.

NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude 20° 19' 25" N. and Longitude 86° 48' 8" E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilot's Station will be continued as heretofore, off Point Palmyra, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude 20° 42' to 20° 48' N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In

this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red flag, flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

C. B. GREENLAW, Secretary.

Fort William, the 23rd January, 1837.

NOTICE.—From to-morrow, the 10th instant, Mean Time will be shewn to the Shipping in the River every day, (Sundays and Christian Holidays excepted) by dropping a Ball from the Telegraph Tower in the Fort. The Ball will be hoisted at 5 minutes before 12, and dropped at mean noon.

5.—The 10 per Cent. taken at the time of Sale must be completed to 30 per Cent. within ten days of the Sale, under penalty of the said 10 per Cent. being forfeited, and after such forfeiture the Opium shall be re-sold for the benefit of the Honorable the East India Company at such time or times, as may be determined by the Board of Customs, Salt and Opium.

6.—The whole of the purchase money shall be paid within one Calendar month from the day of Re-sale, (that is to say, before the 27th July 1837) and in failure of such payment the Deposits of 30 per Cent. shall be forfeited to the said East India Company, and the Opium for which

such Deposits of 30 per Cent. may have been made, shall be sold under the directions of the Board of Customs, Salt and Opium, for and on behalf of the said East India Company.

The Bills of Lading must be drawn deliverable to the East India Company, or endorsed to the order of the East India Company. The Policies of Insurance must be effected in the name and on behalf of the East India Company, as the Parties interested, or endorsed to their order; but persons desirous of effecting the necessary Insurance in this Country, and of depositing the Policies in the Company's Treasury, will be allowed to do so.

5th.—In case of default being made either in acceptance, or payment of the Bills, the Court of Directors to be authorized, in such manner and at such times as they may see fit to sell the Goods, for the purpose of re-paying the Company the amount of the Advances made thereon, including

Freight and any other charges or expenses which the Company may have incurred on account of the Consignment, together with interest, should any have accrued; the Company, on the other hand, allowing discount, where any part of the proceeds shall be realized before the Bills fall due, and the settlement of either surplus or deficiency shall be made with the Consignor; and if in India or China by the Government or Agents from whom he received the Advance, at the rate of exchange at which the Company may at the time be drawing Bills upon such Government or Agents.

6th.—An Agent in England shall be appointed for each Consignment, to whom the Court of Directors shall be empowered to make over the Goods, subject to all the conditions agreed upon with the Company, on payment of the Bills; and with whom they shall be authorized to transact generally all business relating to such Goods. The Consignor shall be at liberty to make provision, in case of the Party upon whom the Bill is drawn, (being also the Agent) having failed to accept the Bill, for the substitution of another Agent.

7th.—After the arrival of the Goods in England and when they shall have been placed in such deposit as may have been agreed upon, the Agent may be put into possession of them before the Bills become due, upon the amount of such Bills (less discount) being paid, together with the Freight and any other charges and expenses which the Company have paid or may be subject to on account of the Goods.

8th.—The rate of Discount to be allowed by the Company shall be the same as that charged by the Bank of England.

9th.—It is expected that Parties or their Agents will cause the Goods to be Insured from fire, such Insurance to take effect from the date of the termination of the Sea risk; as the East India Company will not undertake to effect any Insurance upon them.

10th.—Parties receiving Advances, to address in each instance a Letter in quadruplicate to the Court of Directors, according to a form which will be furnished by the Officers of Government (or authorized Agents of the East India Company), signifying their assent to all the foregoing conditions, but more particularly for the purpose of expressly authorizing the sale of the Goods by the Company (without either notice to or concurrence of any person whomsoever) at any period after default shall be made either in acceptance or payment of the Bills; also authorizing, in such cases, the re-paying to the Company the Advances made, either principal or interest, together with any other charges or expenses which the Company may have incurred in respect of the Goods, and appointing the Agent in England for each transaction.

LIGHT AT FALSE POINT—BAY OF BENGAL.

NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 19' 25''$ N. and Longitude $86^{\circ} 48' 8''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon abovementioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they

will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

LIGHT AT FALSE POINT—BAY OF BENGAL.

NOTICE.

REFERRING to the Notice published from this Office under date 19th July last, Notice is given that on the 1st day of March next a Light will be exhibited at False Point on a Tripod, in Latitude $20^{\circ} 10' 25''$ N. and Longitude $86^{\circ} 48' 8''$ E.

The Light will be exhibited from an elevation of about 65 feet above high water mark, and be visible in clear weather at a distance of about 13 miles from an elevation of 15 feet above the surface of the Sea.

The Light will be continued at this height until the end of November, after which it will be discontinued, in order to the removal of the Lantern to the top of the permanent Building. It will subsequently, viz. on and after the 1st March, 1838, be again exhibited at an elevation of 120 feet above high water mark, and be then visible from 18 to 20 miles in clear weather, from the height of 15 feet from the surface of the Sea.

The Pilots' Station will be continued as heretofore, off Point Palmyras, during the S. W. Monsoon, that is from the 15th March to the 15th September, during which period the Pilot Vessels cruise during the day off the Point, anchoring during the night in a line East and West, in Latitude $20^{\circ} 42'$ to $20^{\circ} 48'$ N. with the Point bearing West to W. by S.; the Vessel, on board of which the next turn Pilot may be, will burn a Blue Light and fire a Maroon alternately every half hour, commencing with the former at eight o'clock and continuing till day light.

Commanders, on making the Light on False Point, are recommended after bringing it to bear West in from 13 to 14 fathoms, to steer to the N. E. keeping in from 13 to 18 fathoms as the wind may hang to the Westward or Eastward, on no account coming under the former depth. In this track the Blue Light and Maroon above mentioned will be seen long before the Light on False Point is lost sight of. If, however, about the beginning of September, the wind comes from the Eastward or the weather assumes a threatening appearance, the Pilot Vessels necessarily haul off to the Eastward, and will then be found in a line between Point Palmyras and the Floating Light at the entrance of the Eastern Channel. Vessels therefore about that period, if the wind hangs to the Eastward or has a threatening appearance, are recommended after leaving False Point on no account to approach Point Palmyras, but rather to endeavour to make for the Floating Light at the entrance of the Eastern Channel, and it is further notified that from the 15th September no Pilot Vessel will be found to the Westward of the Western Sea Reef.

From the 15th September to the 15th March the Pilot Vessels cruise during the day between Saugor Sand and the Western Sea Reef, anchoring in the night East and West of each other, in Latitude 21° to $21^{\circ} 10'$ North.

Vessels approaching either Station during the day, are requested to make for that Vessel on board of which they will see a large red Flag flying at the Main whenever they can do so without great inconvenience or delay. In the night during the N. E. Monsoon, that is from 15th September to 15th March, at the Floating Light Station at the entrance of the Eastern Channel, the Vessel having the next turn Pilot on board will burn a Maroon every hour, and in thick weather every half hour, and as before stated, at the Point Palmyras Station, during the S. W. Monsoon, or between 15th March and 15th September, such Vessel will alternately burn a Blue Light and Maroon every half hour. Commanders are in like manner requested during the night to seek their Pilot from such Vessel, it being however understood that any Pilot Vessel which may be first seen is bound immediately to use every exertion to put a Pilot on board, night or day, without reference to turn or rotation, and that this latter is only allowed when no delay is occasioned thereby.

By Order of the Marine Board,

C. R. GREENLAW, Secretary.
